

SYLLABUS

In the absence of a decision whether we should move some classes to the evening (see the NEWS page on the website), and assuming the three days I'll be missing, **these are our class slots:**

September:	06	20
	09	23
	13	30
	16	
October:	04	14G
	07	25
	11C	
November:	01	18
	04	22
	08E	23W
	11	25
	15	29
	16W	30W
December:	02	16*

*(C = guest lecture by Christopher Laenzlinger (Geneva): cartography of CP/DP, G = guest lecture by Gabriela Soare (Geneva): multiple wh, E = guest lecture by Evi Sifaki (Roehampton): null subjects, W = Wednesday class, * = final paper due)*

Here are some theme complexes I would like to present, discuss, and analyze:

Word Order Variation

clausal word order

nominal word order

free word order/scrambling

head parameter

Pronominal Syntax

null subjects

pro and *pro*-drop

cliticization

split IP

Issues in the Left Periphery

(multiple) *wh*-questions

split CP

Agreement Phenomena

A-agreement (within IP)

A'-agreement (within CP)

In the next few days (...) **I will prepare a course reader** with some core (and / or other interesting) articles published on these issues. When it's done, **you can pick it up from Antoniou copy shop.**
